Our first hike had nice cool weather about 55 degrees. The trail is well kept and very flat and easy to negotiate a wheelchair. We had 17 people on our first hike and it went very well. Everybody is very excited about reaching Lebanon by fall. We walked past forest, lakes, wetlands and pastures. We saw birds, Canadian geese, a snake and lots of varieties of plants and trees. Patrick Green was our no. 1 trash collector and picked up an entire bag of trash. We ended at the baseball field after 2.5 miles. We will start there the next time.
